

# Graphic Designer

**Location:** Krakow, Małopolskie

**Category:** Business Development/Sales/Marketing

**Job ID:** PPS000240

Our People & Places Solutions business – reinforces our drive to improve the lives of people everywhere and epitomizes the “why” of what we do – the tremendous positive impact and value our solutions bring to our communities and society as a whole. From facilities delivering life-saving therapies and ensuring clean water to enabling the connection of people through all modes of transportation and providing access to technology – we’re integrating a multitude of these solution elements to build the smart environments of tomorrow.

Start your Jacobs career with a company that inspires and empowers you to deliver your best work so you can evolve, grow and succeed – today and into tomorrow.

## Your Impact:

For our Creative & Sales Solutions Team, we are looking for a Graphic Designer position who will be responsible for designing graphics and production elements using graphics software for various documentation needs including technical reports, master plans, presentations, marketing materials, and other collateral pieces.

## Key responsibilities:

- Provides graphic design technical support using advanced computer applications.
- Creates complex graphics and elements for collateral including technical project reports, proposals, presentations, and marketing deliverables. This can also include creating and formatting electronic and hard copy deliverables.
- Cooperates with business development and project teams for moderately complex deliverables.
- Independently leads the graphic design phase for moderately complex materials, proposals (with up to 50 figures), presentations, marketing and communication efforts, or client deliverable efforts, working with business development and project teams.

- Coordinates graphics production and assists in establishing budget.
- Follows approved graphic design methods using standard tools. May suggest alternative methods and develop best practices.
- Consistently uses firm branding concepts.
- Assists less experienced team members in using technology.
- Evaluates and resolves problems by reviewing multiple sources of information and drawing conclusions.

#### **Requirements:**

- Master's or Bachelor's degree in Graphic Design or a similar field
- 3 years of graphic design experience (preferred)
- Advanced knowledge of Adobe Creative tools (especially Illustrator and Indesign)
- Advanced English skills
- Previous work experience in Engineering industry will be an asset

#### **We offer:**

- International working environment and unique company culture.
- Personal development opportunities.
- Friendly atmosphere in dynamic team.
- Full time employment contract with salary corresponding to qualification.
- Benefits package including medical care, insurance, sport activities and other.
- Independent role and flexible working hours.

At Jacobs, we're challenging today to reinvent tomorrow by solving the world's most critical problems for thriving cities, resilient environments, mission-critical outcomes, operational advancement, scientific discovery and cutting-edge manufacturing, turning abstract ideas into realities that transform the world for good.
